DATE OF INFO.

SUPPLEMENT TO
REPORT NO.

Between 5 August and 5 October 1951, both battalions were being utilized in the construction of a new plant, which source believes to be an aircraft factory. The installation is located 700 meters west of the Mostar airfield. Also under construction during this period were the following:

- a. A four-story building measuring 30 by 20 meters, which will house the administrative offices of the factory;
- b. The main factory building which measures 147 by 53 meters;
- c. Adjacent to the main factory building two barracks, one measuring 100 by 30 meters and the other, (which is an extension of the first), measuring 40 by 20 meters; and

- d. A one-story building measuring 120 by 30 meters which allegedly will house the laboratory and provide offices for the technical and administrative personnel.
4. According to source progress on the project is fairly well advanced. The area in which the construction is taking place is connected with Mostar by a railroad spur which begins at the Mostar railroad station, then proceeds across the Mostar airfield and ends at the plant site. No machinery had been installed in the plant at the time this information was obtained.
